

Valero Energy Bulk* Gift Card Program Pricing and Processing Overview

Pricing

Standard Orders & Reloads

Standard gift card orders and reloads are subject to a 3% shipping and handling fee of the total face value of the cards. \$5.00 cards are subject to a \$0.25 surcharge per card in addition to the 3% fee.

501(c)(3) Organizations or Companies

The 3% shipping and handling fee will be waived for 501(c)(3) organizations; however, all 501(c)(3) organizations are required to pay a card recovery cost of \$0.25 per card regardless of the denomination of the card. (For example, if you order 100 fuel only cards, then the additional fee would be \$25.00 plus the face value of the order.)

Shipping

Shipping via UPS Ground anywhere in the Continental U.S. is included in the 3% handling fee. If the order needs to be sent FedEx [overnight](#) or by FedEx 2nd Day Air (expedited delivery), the purchaser pays the shipping charges based on a rate scale that is determined by where the order is being shipped. If your organization has its own UPS account number or FedEx account number, you have the option for us to use it to expedite the shipping of an urgent order. Please provide the information when the order is placed.

Order Processing.

Most orders are subject to a 2 business day processing window.

Orders placed on a new account, paid by check, are subject to a waiting period of up to 10 business days to allow for payment clearance.

Reload orders are subject to a 1 business day processing window.

Reload orders containing 20 or more cards for reload are subject to a 5 business day processing window.

* Bulk orders are considered 20 or more cards, however smaller orders will be processed under the same terms above.

Orders of less than 20 cards can be purchased at participating Valero locations at face value (no handling fees assessed).
