SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Name of the substance Propane
Identification number 74-98-6
Registration number -
Synonyms None.
SDS number 2029
Issue date 27-July-2011
Version number 05
Revision date 24-July-2013
Supersedes date 17-August-2012

1.2. Relevant identified uses of the substance or mixture and uses advised against
Identified uses Fuel.
Uses advised against None known.

1.3. Details of the supplier of the safety data sheet
Supplier
Company name Valero Energy Ltd
Address 1 Westferry Circus
Canary Wharf
London E14 4HA
UK
Telephone 01/210 345 4593 (General information; US)
e-mail CorpHSE@valero.com
Contact person Industrial Hygienist

1.4. Emergency telephone number
0044/(0)18 65 407333

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification according to Directive 67/548/EEC or 1999/45/EC as amended
Classification F+;R12
Classification according to Regulation (EC) No 1272/2008 as amended
Physical hazards
Flammable gases Category 1 H220 - Extremely flammable gas.
Gases under pressure Compressed gas H280 - Contains gas under pressure; may explode if heated.

Hazard summary
Physical hazards Extremely flammable.
Health hazards Not classified for health hazards. However, occupational exposure to the mixture or substance(s) may cause adverse health effects.
Environmental hazards Not classified for hazards to the environment.
Specific hazards Not available.
Main symptoms Not available.

2.2. Label elements
Label according to Regulation (EC) No. 1272/2008 as amended
Identification number 74-98-6

Signal word Danger
### Hazard statements
- H220 - Extremely flammable gas.
- H280 - Contains gas under pressure; may explode if heated.

### Precautionary statements
**Prevention**
- P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

**Response**
- P377 - Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
- P381 - Eliminate all ignition sources if safe to do so.

**Storage**
- P410 - Protect from sunlight.
- P403 - Store in a well-ventilated place.

**Disposal**
- Not assigned.

### Supplemental label information
- Not applicable.

### 2.3. Other hazards
- Static accumulator - Static accumulating flammable materials can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite material and vapor may cause flash fire (or explosion).

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

<table>
<thead>
<tr>
<th>Chemical name</th>

</tr>
</tbody>
</table>

**Classification:**
- DSD: F+,R12
- CLP: Flam. Gas 1;H220, Press. Gas;H280

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

**Inhalation**
Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Call a physician or poison control center immediately.

**Skin contact**
Wash frost-bitten areas with plenty of water. Do not remove clothing. Get medical attention immediately.

**Eye contact**
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

**Ingestion**
Ingestion is not a typical route of exposure for gases or liquefied gases. Contact with liquefied gas may cause frostbite.

#### 4.2. Most important symptoms and effects, both acute and delayed

Treat symptomatically.

### SECTION 5: Firefighting measures

**General fire hazards**
Extremely flammable gas. Containers may explode when heated.

#### 5.1. Extinguishing media

**Suitable extinguishing media**

**Unsuitable extinguishing media**
Do not use a solid water stream as it may scatter and spread fire.

#### 5.2. Special hazards arising from the substance or mixture

Vapor may cause flash fire. Vapors can flow along surfaces to distant ignition source and flash back. Sensitive to static discharge.

#### 5.3. Advice for firefighters

**Special protective equipment for firefighters**
Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.
Special fire fighting procedures

Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Withdraw immediately in case of rising sound from venting safety devices or any discolouration of tanks due to fire. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Move containers from fire area if you can do it without risk. In the event of fire, cool tanks with water spray. Cool containers exposed to flames with water until well after the fire is out. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Vapours may form explosive air mixtures even at room temperature. Prevent buildup of vapours or gasses to explosive concentrations. Some of these materials, if spilled, may evaporate leaving a flammable residue. Water runoff can cause environmental damage.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Keep upwind. Keep out of low areas. Ventilate closed spaces before entering. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. See Section 8 for personal protective equipment.

For emergency responders

Keep unnecessary personnel away. Wear protective clothing as described in Section 8 of this safety data sheet.

6.2. Environmental precautions

Should not be released into the environment. Prevent further leakage or spillage if safe to do so. Prevent material from entering drains, sewers or low lying areas. See section 13 for waste disposal information.

6.3. Methods and material for containment and cleaning up

Ventilate well, stop flow of gas or liquid if possible. Immediately contact emergency personnel.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Eliminate sources of ignition. Avoid spark promoters. Ground/bond container and equipment. These alone may be insufficient to remove static electricity. Wear appropriate personal protective equipment (See Section 8). Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Do not breathe gas. Do not get in eyes, on skin, on clothing. Use only with adequate ventilation.

7.2. Conditions for safe storage, including any incompatibilities

Store in accordance with local, regional, national, and international regulations. Secure cylinders in an upright position at all times, close all valves when not in use. Store in a cool, dry, well-ventilated place. Keep container tightly closed and sealed until ready for use. Protect cylinders from damage.

7.3. Specific end use(s)

Fuel.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Propane SDS EU
903931 Version No.: 05 Revision date: 24-July-2013 Issue date: 27-July-2011
8.2. Exposure controls

**Appropriate engineering controls**

Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. The engineering controls also need to keep gas, vapor, or dust concentrations below any lower explosive limits.

**Individual protection measures, such as personal protective equipment**

**General information**

Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment. Contact with liquefied gas might cause frostbites, in some cases with tissue damage.

**Eye/face protection**

Wear approved safety glasses or goggles.

**Skin protection**

- **Hand protection**
  
  Wear appropriate chemical resistant gloves.

- **Other**
  
  Wear protective clothing appropriate for the risk of exposure.

**Respiratory protection**

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

**Thermal hazards**

Contact with liquefied gas might cause frostbites, in some cases with tissue damage.

**Hygiene measures**

Do not eat, drink or smoke when using the product. Wash thoroughly after handling. Provide eyewash station and safety shower. Handle in accordance with good industrial hygiene and safety practices.

**Environmental exposure controls**

Not available.

---

**SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

**Appearance**

Colorless liquefied gas.

**Physical state**

Gas.

**Form**

Compressed liquefied gas.

**Colour**

Colorless

**Odour**

Odourless.

**Odour threshold**

Not available.

**pH**

Not available.

**Melting point/freezing point**

-185.89 °C (-302.6 °F)

**Initial boiling point and boiling range**

-41.79 °C (-43.22 °F)

**Flash point**

-104.5 °C (-156.0 °F) Closed cup

**Evaporation rate**

Not available.
Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)
2,3 %

Flammability limit - upper (%)
9,5 %

Vapour pressure Not available.

Vapour density 1,6

Relative density 0,51 (15°C)

Solubility(ies) Insoluble.

Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature 449,85 °C (841,73 °F)

Decomposition temperature Not available.

Viscosity Not available.

Explosive properties Not available.

Oxidizing properties Not available.

9.2. Other information

Molecular formula C3-H8

Molecular weight 44,1 g/mol

VOC (Weight %) 100 %

SECTION 10: Stability and reactivity

10.1. Reactivity Not available.

10.2. Chemical stability Stable under normal temperature conditions and recommended use.

10.3. Possibility of hazardous reactions Polymerization will not occur.

10.4. Conditions to avoid In a fire or if heated, a pressure increase will occur and the container may burst or explode.

10.6. Hazardous decomposition products None known.

SECTION 11: Toxicological information

General information Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling.

Information on likely routes of exposure

Ingestion Not applicable.

Inhalation Suffocation (asphyxiant) hazard - if allowed to accumulate to concentrations that reduce oxygen below safe breathing levels.

Skin contact Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling.

Eye contact Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling.

Symptoms Exposure to rapidly expanding gas or vapourizing liquid may cause frostbite ("cold burn").

11.1. Information on toxicological effects

Acute toxicity Suffocation (asphyxiant) hazard - if allowed to accumulate to concentrations that reduce oxygen below safe breathing levels. Exposure to rapidly expanding gas or vapourizing liquid may cause frostbite ("cold burn").

Skin corrosion/irritation Not assigned.

Serious eye damage/eye irritation Not assigned.

Respiratory sensitisation Not assigned.

Skin sensitisation Not available.

Germ cell mutagenicity Not assigned.

Carcinogenicity Not assigned.

Reproductive toxicity Not assigned.

Specific target organ toxicity - single exposure Not assigned.
SECTION 12: Ecological information
12.1. Toxicity
Not expected to be harmful to aquatic organisms.
12.2. Persistence and degradability
Not available.
12.3. Bioaccumulative potential
Not available.
Bioconcentration factor (BCF)
Not available.
12.4. Mobility in soil
Not available.
12.5. Results of PBT and vPvB assessment
Not a PBT or vPvB substance or mixture.
12.6. Other adverse effects
Not available.

SECTION 13: Disposal considerations
13.1. Waste treatment methods
Residual waste
Dispose of in accordance with local regulations.
Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied.
EU waste code
16 05 04*
Disposal methods/information
Dispose in accordance with all applicable regulations. This material and its container must be disposed of as hazardous waste. Do not discharge into drains, water courses or onto the ground.

SECTION 14: Transport information
ADR
14.1. UN number
UN1978
14.2. UN proper shipping name
PROPANE
14.3. Transport hazard class(es)

Not available.
14.5. Environmental hazards
No
IATA

14.1. UN number
UN1978

14.2. UN proper shipping name
Propane

14.3. Transport hazard class(es)
2.1

14.4. Subsidiary class(es)
- Not available.

14.5. Environmental hazards
Not available.

14.6. Special precautions for user
Not available.

IMDG

14.1. UN number
UN1978

14.2. UN proper shipping name
PROPANE

14.3. Transport hazard class(es)
2.1

14.4. Subsidiary class(es)
- Not available.

14.5. Environmental hazards
Marine pollutant
No

14.6. Special precautions for user
Not available.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
This product is a compressed or liquefied gas and when transported in bulk is covered under IGC code.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I
Not listed.

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex II
Not listed.

Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 2 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 3 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry
Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(1) Candidate List as currently published by ECHA
Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorisation, as amended
Not listed.

Restrictions on use
Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended
Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work
Not regulated.

Directive 92/85/EEC: on the safety and health of pregnant workers and workers who have recently given birth or are breastfeeding
Not regulated.

Other EU regulations
Directive 96/82/EC (Seveso II) on the control of major-accident hazards involving dangerous substances
Not regulated.

Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work
Not listed.

Directive 94/33/EC on the protection of young people at work
Not listed.

National regulations
Not available.

15.2. Chemical safety assessment
Chemical Safety Assessment has been carried out.
Annex for Exposure Scenarios is not required for this material.

SECTION 16: Other information

List of abbreviations
DSD: Directive 67/548/EEC.
DNEL: Derived No-Effect Level.
PNEC: Predicted No-Effect Concentration.
PBT: Persistent, bioaccumulative and toxic.
vPvB: Very Persistent and very Bioaccumulative.

References
Not available.

Information on evaluation method leading to the classification of mixture
The mixture is classified based on test data for physical hazards. The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available. For details, refer to Sections 9, 11 and 12.

Full text of any statements or R-phrases and H-statements under Sections 2 to 15
R12 Extremely flammable.
H220 Extremely flammable gas.
H280 Contains gas under pressure; may explode if heated.

This SDS contains revisions in the following section(s):
This safety data sheet contains revisions in the following section(s): 2, 7.

Training information
Not available.

Disclaimer
This material Safety Data Sheet (SDS) was prepared in accordance with EC No 1272/2008 by Valero Energy Ltd. Valero Energy Ltd. does not assume any liability arising out of product use by others. The information, recommendations, and suggestions presented in this SDS are based upon test results and data believed to be reliable. The end user of the product has the responsibility for evaluating the adequacy of the data under the conditions of use, determining the safety, toxicity and suitability of the product under these conditions, and obtaining additional or clarifying information where uncertainty exists. No guarantee expressed or implied is made as to the effects of such use, the results to be obtained, or the safety and toxicity of the product in any specific application. Furthermore, the information herein is not represented as absolutely complete, since it is not practicable to provide all the scientific and study information in the format of this document, plus additional information may be necessary under exceptional conditions of use, or because of applicable laws or government regulations.
