1. Identification

Product identifier: Liquified Petroleum Gas

Other means of identification:
- SDS number: 306-GHS
- Synonyms: LPG, Propane-Butane Mixture, Raw LPG

Recommended use: Refinery feedstock.

Recommended restrictions: None known.

Manufacturer/Importer/Supplier/Distributor information:
- Manufacturer/Supplier: Valero Marketing & Supply Company and Affiliates
  One Valero Way
  San Antonio, TX 78269-6000
- General Assistance: 210-345-4593
- E-Mail: CorpHSE@valero.com
- Contact Person: Industrial Hygienist
- Emergency Telephone: 24 Hour Emergency 866-565-5220

2. Hazard(s) identification

Physical hazards: Flammable gases, Gases under pressure

Health hazards: Germ cell mutagenicity, Carcinogenicity

OSHA defined hazards: Simple asphyxiant

Label elements:
- Signal word: Danger
- Precautionary statement:
  - Prevention: Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.
  - Response: If exposed or concerned: Get medical advice/attention. Leaking gas fire: Do not extinguish, unless leak can be stopped safely. Eliminate all ignition sources if safe to do so.
  - Storage: Store locked up. Protect from sunlight. Store in a well-ventilated place.
  - Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC): None known.

### 4. First-aid measures

**Inhalation**

Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Call a physician or poison control center immediately.

**Skin contact**

Wash frost-bitten areas with plenty of water. Do not remove clothing. Get medical attention immediately.

**Eye contact**

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

**Ingestion**

Ingestion is not a typical route of exposure for gases or liquefied gases.

**Most important symptoms/effects, acute and delayed**

**Indication of immediate medical attention and special treatment needed**

Treat symptomatically.

### 5. Fire-fighting measures

**Suitable extinguishing media**

Dry chemical, CO2, water spray, fog, or foam.

**Unsuitable extinguishing media**

Not available.

**Specific hazards arising from the chemical**

Extremely flammable gas. During fire, gases hazardous to health may be formed. Vapors are heavier than air and may travel along the ground to some distant source of ignition and flash back.

**Special protective equipment and precautions for firefighters**

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire-fighting equipment/instructions**

Self-contained breathing apparatus, operated in positive pressure mode and full protective clothing must be worn in case of fire.

Move container from fire area if it can be done without risk.

Do not extinguish fires unless gas flow can be stopped safely; explosive re-ignition may occur. Promptly isolate the scene by removing all persons from the vicinity of the incident. No action shall be taken involving any personal risk or without suitable training. For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus. Stop flow of material. Use water to keep fire exposed containers cool and to protect personnel effecting shutoff. If a leak or spill has not ignited, use water spray to disperse the vapors and to protect personnel attempting to stop leak. Prevent runoff from fire control or dilution from entering streams, sewers or drinking water supply.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**

Evacuate the area promptly. No action shall be taken involving any personal risk or without suitable training. Keep unnecessary personnel away.

Ensure adequate ventilation. In case of inadequate ventilation, use respiratory protection. Wear appropriate personal protective equipment (See Section 8).

**Methods and materials for containment and cleaning up**

Ventilate well, stop flow of gas or liquid if possible. Immediately contact emergency personnel.

**Environmental precautions**

Should not be released into the environment. Prevent further leakage or spillage if safe to do so. Prevent from entering into soil, ditches, sanitary sewers, waterways and/or groundwater.
7. Handling and storage

Precautions for safe handling
Eliminate sources of ignition. Avoid spark promoters. Ground/bond container and equipment. These alone may be insufficient to remove static electricity. Wear appropriate personal protective equipment (See Section 8). Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Do not breathe gas. Do not get in eyes, on skin, on clothing. Use only with adequate ventilation.

Conditions for safe storage, including any incompatibilities
Store in accordance with local, regional, national, and international regulations. Secure cylinders in an upright position at all times, close all valves when not in use. Store in a cool, dry, well-ventilated place. Keep container tightly closed and sealed until ready for use. Protect cylinders from damage.

Appropriate engineering controls
Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. The engineering controls also need to keep gas, vapor, or dust concentrations below any lower explosive limits.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear approved safety glasses or goggles.
Skin protection
   Hand protection
      Wear appropriate chemical resistant gloves.
   Other
      Wear protective clothing appropriate for the risk of exposure.
Respiratory protection
   If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.
Thermal hazards
   Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations
   Do not eat, drink or smoke when using the product. Wash thoroughly after handling. Provide eyewash station and safety shower. Handle in accordance with good industrial hygiene and safety practices.

9. Physical and chemical properties

Appearance
   Colorless liquefied gas.

Physical state
   Gas.

Form
   Compressed liquefied gas.

Color
   Colorless

Odor
   Faint. May have natural gas odorant added.

Odor threshold
   Not available.

pH
   Not available.

Melting point/freezing point
   -285 °F (-176.11 °C) Weighted average

Initial boiling point and boiling range
   > -44.39 °F (> -42.44 °C)

Flash point
   -212.5 °F (-135.9 °C) Closed Cup (Methane)

Evaporation rate
   Not available.

Flammability (solid, gas)
   Not available.

Upper/lower flammability or explosive limits

   Flammability limit - lower (%)
   1 %

   Flammability limit - upper (%)
   9.5 %

   Explosive limit - lower (%)
   Not available.

   Explosive limit - upper (%)
   Not available.

Vapor pressure
   Not available.

Vapor density
   1.5

Relative density
   0.51

Solubility(ies)

   Solubility (water)
   Insoluble.

Partition coefficient (n-octanol/water)
   Not available.

Auto-ignition temperature
   > 724.73 °F (> 384.85 °C) (Butylene)

Decomposition temperature
   Not available.

Viscosity
   Not available.

Other information

   Molecular formula
   C3-H8 (Propane)

   Molecular weight
   44.1 (Propane)

   VOC (Weight %)
   100 %

10. Stability and reactivity

Reactivity
   Not available.

Chemical stability
   Stable under normal temperature conditions and recommended use.

Possibility of hazardous reactions
   Polymerization will not occur.

Conditions to avoid
   In a fire or if heated, a pressure increase will occur and the container may burst or explode.
Incompatible materials

Hazardous decomposition products
No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Ingestion
Not likely, due to the form of the product.

Inhalation
Breathing of high concentrations may cause dizziness, light-headedness, headache, nausea and loss of coordination. Continued inhalation may result in unconsciousness. Suffocation (asphyxiant) hazard - if allowed to accumulate to concentrations that reduce oxygen below safe breathing levels.

Skin contact
Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling.

Eye contact
Contact with liquefied gas may cause frostbite.

Symptoms related to the physical, chemical and toxicological characteristics

Information on toxicological effects

Acute toxicity
Suffocation (asphyxiant) hazard - if allowed to accumulate to concentrations that reduce oxygen below safe breathing levels. Exposure to rapidly expanding gas or vaporizing liquid may cause frostbite ("cold burn").

</tbody>
</table>

Skin corrosion/irritation
Contact with liquefied gas might cause frostbites, in some cases with tissue damage.

Serious eye damage/eye irritation
Direct contact with liquefied gas may cause eye damage from frostbite.

Respiratory or skin sensitization

Respiratory sensitization
Based on available data, the classification criteria are not met.

Skin sensitization
Not a skin sensitizer.

Germ cell mutagenicity
May cause genetic defects.

Carcinogenicity
May cause cancer.
1,3-butadiene (CAS 106-99-0) 1 Carcinogenic to humans.
Ethylene (CAS 74-85-1) 3 Not classifiable as to carcinogenicity to humans.
Propylene (CAS 115-07-1) 3 Not classifiable as to carcinogenicity to humans.

NTP Report on Carcinogens
1,3-butadiene (CAS 106-99-0) Known To Be Human Carcinogen.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
1,3-butadiene (CAS 106-99-0) Cancer

Reproductive toxicity Based on available data, the classification criteria are not met.
Specific target organ toxicity - single exposure Based on available data, the classification criteria are not met.
Specific target organ toxicity - repeated exposure Based on available data, the classification criteria are not met.
Aspiration hazard Based on available data, the classification criteria are not met.
Chronic effects May cause central nervous system effects.

12. Ecological information
Ecotoxicity Not expected to be harmful to aquatic organisms.
Persistence and degradability Not available.
Bioaccumulative potential Not available.
Partition coefficient n-octanol / water (log Kow)
1,3-butadiene (CAS 106-99-0) 1.99
Butane (CAS 106-97-8) 2.89
Ethylene (CAS 74-85-1) 1.13
Isobutane (CAS 75-28-5) 2.76
Propane (CAS 74-98-6) 2.36
Propylene (CAS 115-07-1) 1.77
Mobility in soil Not available.
Other adverse effects Not available.

13. Disposal considerations
Disposal instructions Dispose in accordance with all applicable regulations. Empty containers may contain product residues. Do not puncture or incinerate even when empty. This material and/or its container must be disposed of as hazardous waste. Return the empty cylinder to the supplier.
Hazardous waste code D001: Waste Flammable material with a flash point <140 °F
Waste from residues / unused products Dispose of in accordance with local regulations.
Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information
DOT
UN number UN1075
UN proper shipping name Petroleum gases, liquefied
Transport hazard class(es) Class 2.1
Subsidiary risk -
Packing group Not applicable.
Special precautions for user Read safety instructions, SDS and emergency procedures before handling.
Special provisions T50
Packaging exceptions 306
Packaging non bulk 304
Packaging bulk 314, 315
IATA
UN number UN1075

**Disclaimer**

This Material Safety Data Sheet (MSDS) was prepared in accordance with 29 CFR 1910.1200 by Valero Marketing & Supply Co., ("VALERO"). VALERO does not assume any liability arising out of product use by others. The information, recommendations, and suggestions presented in this SDS are based upon test results and data believed to be reliable. The end user of the product has the responsibility for evaluating the adequacy of the data under the conditions of use, determining the safety, toxicity and suitability of the product under these conditions, and obtaining additional or clarifying information where uncertainty exists. No guarantee expressed or implied is made as to the effects of such use, the results to be obtained, or the safety and toxicity of the product in any specific application. Furthermore, the information herein is not represented as absolutely complete, since it is not practicable to provide all the scientific and study information in the format of this document, plus additional information may be necessary under exceptional conditions of use, or because of applicable laws or government regulations.
