

BENICIA REFINERY

The Valero Benicia Refinery is located northeast of San Francisco on the Carquinez Straits of San Francisco Bay.

FAST FACTS

more than **400+** employees

Nearly **\$11 million** paid in local property taxes in 2023

Travis Air Force Base receives **Valero-branded fuel** through a partnership with the Army & Air Force Exchange Service (AAFES)

Nearly **28,000** volunteer hours since 2017

More than **\$8 million** in local charitable giving since 2017

A significant portion of the city of Benicia's **general revenue fund** comes from the refinery and associated Benicia Industrial Park Association entities

170,000 barrels per day (bpd) throughput capacity

50 megawatts of power generated by the cogeneration unit, making the refinery more reliable, and less dependent on the local electric grid

Nearly **\$7 million** given to the United Way of the Bay Area since 2017

THE BENICIA REFINERY

Produces clean burning **jet fuel, gasoline, diesel**, as well as **asphalt** for our roads and highways

Produces **California Reformulated Blendstock Gasoline for Oxygenate Blending (CARBOB)**, and **Conventional Blendstock for Oxygenate Blending (CBOB) gasolines**

Gasoline production is primarily CARBOB, which meets CARB specifications when blended with ethanol

Most of the refinery's products are distributed via pipeline and truck rack
