

# Monitorización de Áreas Inmediatas por Benceno

\* El nivel de acción de la EPA no se trata de un límite de reglamentación ni de un nivel de exposición basado en la salud, sino que sirve como un nivel de acción para llevar a cabo investigaciones adicionales.

| Houston Benzene Concentrations (µg/m3) at Sampling Locations |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |                      |  |
